

Dear Vastu Learners,

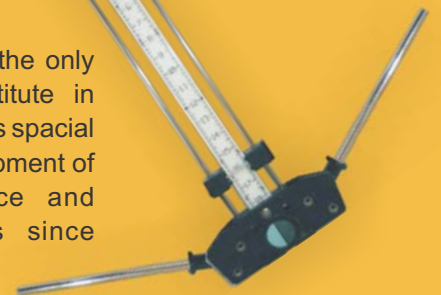

Following the series on Scientific Vastu learning; Vastuworld Learning community is pleased to announce the workshop on '**Geopathic Stresses & Detection of Under Earth Energies, effecting human habitat using Lecher Antenna**'.

It has been quite evident that Vastu or any building built on the plot or site which has Geo stresses in the form of Water Veins, Hartman Grid, Curry Grids etc., and are not compatible to human health.

During our last workshop we have discussed this issue in parts . **Sept 10 workshop would be specifically on under earth energy.**

***During this you will learn:***

1. Basic understanding of : What Geo stresses are? & : How are they formed?
2. Detection & finding of Geo stress lines entering the premises.
3. Identification & Categorizing of the types of Geo stress using LecherAntenna.
4. Analyzing the defects caused by these Geo stresses on Building Structure & surrounding nature.
5. Understanding the impact of Geo stress on human health, parts of the body, diseases, by using frequency modulation method.
6. Rectification process to Deviate or Control these Geo stresses.
7. Rectification, Remedies & Identification of suitable treatment for these Geo stress.

Vastuworld is the only Research Institute in India which has special cell for development of Vastu Science and Geo-Stresses since last 10 years.

**24<sup>th</sup>, 25<sup>th</sup> & 26<sup>th</sup> September 2010  
Vastuworld Pune-India**

***Will also be included in the workshop:***

1. Geo Stress mapping on drawings using LecherAntenna & Bovis Scale
2. Understanding Vastulogical defects on distant plots using Geo Stress mapping on drawing – **Paper Dowsing.**
3. On site visit to detect Geo Stress using LecherAntenna – **Crab Walking.**
4. Practical Training on Installation of Geo Stress Reversal, Geo Jumpers, VV17, VVH etc.

**Note:**

**Special Geo Stress analyzing rulers – New Vastuworld device will be introduced in this workshop.**

**For further details and registration process, please contact**
